

FEE SCHEDULE
GLADEVILLE UTILITY DISTRICT
EFFECTIVE JULY 15, 2020

1. Residential and Commercial Tap Fees:
 - a. Single-family Residential Developers shall pay for construction materials and meters and construct water services in accordance with the District's Specifications. The District shall set the meters for single-family residences.
 - b. Multi-family Residential Developers requesting service through a master meter shall pay a tap fee per residence and/or management office equal to sixty-seven percent (67%) of the fee for a 5/8" x 3/4" tap as shown in the table below. The Developer shall pay for all materials and construction costs associated with the public improvements, including the master meter and all appurtenances.
 - c. Commercial Developers shall pay for construction materials and meters and shall construct water services and install meters to the District's Specifications.
 - d. Commercial (including fire line taps) and residential tap fees are:

Water Meter Size	Tap Fee
5/8" x 3/4" METERS (Residential)	\$1,800.00 (per residence or dwelling)
1" METERS (Residential)	\$2,400.00
METERS larger than 1"	\$2,400.00 per inch diameter

2. To initiate new residential service, a customer shall pay a non-refundable service charge of \$50 for meters up to and including one inch and \$150 for all meters larger than one inch. If a residential customer in good standing with the District (1) moves from one location to another within the District, and terminates service at the original location, or (2) if such a customer has moved outside the District's service area for a period of time and then moves back into the area, the customer will pay a resumption of service fee of \$20.00 rather than a new service charge of \$50.00. For service at multiple locations, the full new service charge will be applicable for each location. For non-residential accounts, the same conditions as stipulated above are applicable except that (1) the initiation of service charge shall be \$150.00 per meter and (2) the resumption of service charge for such customers will be \$50.00 rather than a \$150.00 new service charge.
3. A \$20.00 non-refundable service charge shall be paid by a customer to transfer service.
4. For disconnected service, the re-connection fee is:
 \$30.00 during regular business hours
 \$50.00 after regular business hours
5. There shall be a fee of \$0.15 per sprinkler head per month for fire protection systems for such systems installed in commercial facilities.
6. The fee for a new fire hydrant installed on an existing 6" diameter water line shall be \$4,500.00, including materials and installation. For new hydrants installed on lines larger than 6" in diameter, the fees shall be calculated on a case by case basis.
7. There shall be a fee of \$15.00 per private fire hydrant per month.
8. A \$150.00 non-refundable service fee is required for use of a fire hydrant meter and backflow device (hereinafter referred to as simply the meter) during a construction project. A monthly charge for all water used through the meter shall be paid, with the minimum bill being the then current amount for a 5/8" x 3/4" water meter. If the meter is stolen or if it is returned in a damaged condition, any costs related to the repair or replacement of the meter will be due and payable upon demand by the District, with payment due in full by the entity who signed up for use of the meter. Any outstanding usage charges will also be due and payable at that time.
9. Residential (5/8" x 3/4") water meters purchased from the District shall be \$300.00.

10. Residential meter boxes purchased from the District shall be:
 - \$200.00 with lids
 - \$150.00 without lids
11. The fee for the relocation of a residential water tap shall be shall be a minimum of \$800.00. If the cost of the relocation, including materials and labor, is over \$800.00, the customer will be billed for the actual cost. The fee for relocating a non-residential tap will be determined on a case by case basis.
12. Where meter service assemblies have been damaged or destroyed by contractors, homeowners or other parties, the charges for repairing or replacing such assemblies shall include a flat rate of \$200.00 for up to two hours of one District employee’s labor **plus** the cost of all materials used in making the repair or replacement. If more than two hours of labor is required by one District employee, or if more than one District employee and/or District equipment is required to complete the repair or replacement, the additional costs related to such work shall also be charged to the appropriate party.
13. In accordance with the District’s UNAUTHORIZED US OF WATER AND TAMPERING WITH DISTRICT PROPERTY POLICY, no person or entity shall without the District’s consent (1) use the District’s water without such water being metered, (2) use the District’s water without making application for service, (3) steal water from the District, or (4) tamper with the District’s property. The person or entity responsible for the unauthorized use of the District’s water or tampering with District equipment shall pay a penalty charge in the amount of \$250.00 for the first incident of unauthorized use of water or tampering. For each additional instance thereafter, such person shall pay a penalty charge of \$500.00. In addition, such person or entity shall pay for all water lost for each incident as estimated by the District.

The District’s UNAUTHORIZED US OF WATER AND TAMPERING WITH DISTRICT PROPERTY POLICY is hereby incorporated herewith and shall have the same bearing as if printed as a part of this schedule. The POLICY is available upon request.

14. The fee for a returned check is \$40.00
- 15: Developers’ Fees (See specifics in Development Policy and Contract)
 - a. Application Review Fee \$2,500.00
 - \$ 500.00 – non-refundable initial review fee
